Thanks to funding provided by Santander Universities University’s Enhancing Research Culture Fund, this scheme provides an opportunity for you to contribute to real research projects alongside academic staff and postgraduate researchers at the University.

There are 16 project opportunities across multiple school and discipline areas for you to consider. Research projects will take place between April and July 2024 and provide 100 hours of work spread over this period. Participating students will receive a stipend of £1050 for the duration of the internship and will spend a maximum of 25 hours per week on the placement under the guidance of some of our researchers.

Apply for your chosen project by 5pm 29 February 2024

As a student, taking part in this scheme should make a significant contribution to your transferable skills and employability. If you are considering a research degree in the future, these opportunities also provide an unrivaled insight into the research environment at the University.

Applying

Apply for your chosen project by **5pm on 29 February 2024**. You can only participate in one project running as part of this scheme. Applications can be made for all projects of interest to the scheme, provided that a separate application is submitted for each project.

Should you require any advice regarding the scheme, please email RaKEInitiatives@brighton.ac.uk. After that, queries about individual projects should be directed to the relevant Project Leads (contact details included in project details on [Careers Connect](#)).

The selection

The final selection will be made by a panel led by the Project Lead for the selected project. The panel members will be looking for applicants to communicate effectively how the student research experience scheme will add value to their academic studies, enhance their employability, and be of interest to employers and clients, helping them achieve their immediate and longer-term career plans or future plans.

Please note that this is a competitive process, and submitting an application does not guarantee an award. Each application will be judged based on the information presented within the application. Applicants will be informed of the outcome of their application a minimum of two weeks before the project start date.
